

Accommodations close to Bill Juhl workshop --- Nevada City & Grass Valley

For out of area students, reasonable accommodations are available at numerous B&B's, motels and hotels in the area. The shop is a little less than 15 minutes from either the center of Nevada City or Grass Valley.

Nevada City and Grass Valley are picturesque historic gold rush towns in California with numerous restaurants, bars, shops, and music venues so that any visit provides many options for enjoyment. (I counted 22 restaurants/tap houses with food/breweries within a three block radius of historic downtown Grass Valley). Extensive original Victorian homes abound, the original gold rush era brick buildings still stand, and the street are still illuminated with gas lights at night.

A few properties to consider:

- [Grass Valley Courtyard Suites](#). On the lux side, they provide very accommodating lodging, complementary wine and cheese at night and a well regarded breakfast.
- [The Gold Miner's Inn](#), a modern hotel property in Grass Valley. Reservations include a full hot breakfast in the morning, and two complimentary drinks in the lobby bar, between 5-7pm. Located within 2-3 blocks of numerous restaurants.
Note: Both Courtyard and Gold Miners are within 1-2 blocks walking of several excellent restaurants, a craft brewery, several tap houses and wine bars.
- [Sierra Mountain Inn](#) A totally renovated from foundation up, small old time road side motel that has great reviews. Grass Valley.
- [The Outside Inn](#). Nevada City. Again, a funky very clean very comfortable old school inn. Great owners, and great reviews Best shot is during the week as they book full most all weekends.

Otherwise, check www.tripadvisor.com for B&B's, motels, hotels for both Nevada City and Grass Valley.

Directions:
